pulreturn_LR1

DESIGNER, INVISIBLE & LOW DISTURBANCE RETURN

The Pul Return LR1 is designed to provide a high capacity return to the pool while seamlessly blending in with the pool or spa finish. When installed, the LR1 is flush with the pool finish and has no visible trim.

- Unequaled design aesthetic.
- The linear return blends discreetly into the pool sidewall or floor.
- 34" x 1" linear slot.
- One-piece assembly. No visible trim installation required.
- Integrated finish surface adjustment up to 2".
- 250 GPM recommended maximum flow rate.
- Reversible cap with pool finish or logo options.
- Safe extra-deep slot depth to prevent entrapment.
- 3" rear pipe connection.
- Integrated pressure test cap.
- Patents pending. www.pulproducts.com/about/patents
