

# pulclean

## A ROBUST IN-FLOOR CLEANING SYSTEM

Including 8 port valve, counter rotating cleaning nozzles, and adjustable PUL Jet durations.

### PUL PROPRIETARY APP

The PUL proprietary app allows adjusting nozzle times.

### PUL CONTROLLER

The PUL Controller interfaces with all functions of the in-floor cleaning system.

### PUL 8-PORT VALVE

The PUL 8-port valve has the highest flow capacity of any valve on the market and is configurable for up to 15 cleaning zones.

### PUL JETS

The innovative Cam Logic technology offers clockwise and counterclockwise rotations to effectively clean your pool. The PUL Jets are available in a range of colors to complement your pool finish.

# THE CLEAR ADVANTAGE

- All cleaning functions are adjustable through the PUL proprietary app.
- Up to 30% more efficient resulting in shorter cleaning times and increased savings.
- One of the most capable in-floor cleaning systems on the market.
