

## THE INDUSTRY'S MOST ADVANCED IN-FLOOR CIRCULATION SYSTEM

Including a simple single zone  
operation and adjustable PUL Jet  
durations.

### PUL PROPRIETARY APP

The PUL proprietary app allows adjustability of the  
cleaning system.

### PUL CONTROLLER

The PUL Controller interfaces with all functions of  
the in-floor circulation system.

### PUL JETS

The innovative Cam Logic technology offers  
clockwise and counterclockwise rotations to  
effectively circulate water through the pool. The PUL  
Jets are available in a range of colors to complement  
your pool finish.

# THE CLEAR ADVANTAGE

- All circulation functions are adjustable through the PUL proprietary app.
- Up to 30% more efficient resulting in increased circulation.
- The most capable circulation system on the market.
