UNBLOCKABLE & VIRTUALLY INVISIBLE DRAIN

pulcollekt_LD1

DESIGNER INVISIBLE & UNBLOCKABLE DRAIN

The PUL Collekt LD1 debris removal drain is designed to remove leaves, dirt, and debris while discreetly blending in with the pool and spa floor. When installed, the LD1 is flush with the pool finish and has no visible trim.

- Unequalled designer look.
- Blends discreetly into the pool and spa floor.
- 34" x 1" linear unblockable drain – no secondary drain required.
- One piece assembly, no visible trim installation required.
- Integrated level adjustment up to 2" with built in mounting leveler.
- 360 degree 4" suction connection.
- VGBA 2017 - ANSI/APSP - 16 2017 certified.
- 256 GPM floor.
- 256 GPM wall.
- Reversible cap with pool finish or logo for easy drain plug access.
- Built in hydrostatic relief valve port; cap and threaded connection included.
- Patents pending. www.pulproducts.com/about/patents
