

pulreturn_LR1

HIGH FLOW, VIRTUALLY INVISIBLE RETURN

pulreturn_LR1

DESIGNER, INVISIBLE & LOW DISRUPTION RETURN

The PUL Return LR1 is designed to provide a high capacity, low disruption return to the pool while seamlessly blending in with the pool or spa finish. When installed, the LR1 is flush with the pool finish and has no visible trim.

- Unequalled design aesthetic.
- The linear return blends discreetly into the pool sidewall.
- 34" x 1" linear slot.
- One-piece assembly. No visible trim installation required.
- Integrated finish surface adjustment up to 2".
- 200 GPM recommended maximum flow rate.
- Reversible cap with pool finish or logo options.
- Safe extra-deep slot depth to prevent entrapment.
- 3" rear pipe connection.
- Integrated pressure test cap.
- Patents pending. www.pulproducts.com/about/patents
