

pulclean

A ROBUST, EASY TO INSTALL, IN-FLOOR CLEANING SYSTEM

Including 8 port valve, counter rotating cleaning nozzles, and adjustable PUL Jet durations.

PUL PROPRIETARY APP

The PUL proprietary app allows adjusting nozzle times.*

PUL CONTROLLER

The PUL Controller interfaces with all functions of the in-floor cleaning system.

PUL 8-PORT VALVE

The PUL 8-port valve has the highest flow capacity of any valve on the market and is configurable for up to 15 cleaning zones.

PUL JETS

The innovative Cam Logic technology offers clockwise and counterclockwise rotations to effectively clean your pool. The PUL Jets are available in a range of colors to complement your pool finish.

*not required for startup

THE CLEAR ADVANTAGE

- Extended nozzle durations are adjustable through the PUL proprietary app.
- Up to 30% more efficient resulting in shorter cleaning times and increased savings.
- One of the most capable in-floor cleaning systems on the market.
